12 November 2026 No. SPR-L1(INFRA)-142/2026	1	The description of railway service facilities, ‘Electric power supply stations’, has been approved and will be valid for the period of the 2026–2027 service train timetable.

_____

APPROVED
By the Managing Director of AB “LTG Infra”
12 November 2026
No. SPR-L1(INFRA)-142/2026

DESCRIPTION OF RAILWAY SERVICES (2026–2027) ‘ELECTRIC POWER SUPPLY STATIONS’

1. General information		
1.1.	**Introduction**	1.1.1. The Description of the Railway Services Facility ‘Electric Power Supply Stations’ (hereinafter referred to as **the ‘RSF Description**’) sets out the conditions for access to the electric power supply stations (hereinafter referred to as ‘**Electric Power Stations**’) operated by AB “LTG Infra” (hereinafter ‘**RSF Operator’**) establishes the rules, conditions and procedures for the provision of Electric Power Stations intended to meet the electricity requirements of railway vehicles, and provides information on the applicable charges. 1.1.2. In accordance with Article 30[1](10) of the Railway Transport Code of the Republic of Lithuania (hereinafter referred to as **the ‘Code’**), Electric Power Stations are classified *as other railway service facilities*, *i.e. for the pre-journey heating of trains*. Access to Electric Power Stations is considered **an ancillary service related to rail transport**. 1.1.3. Access may be used by railway undertakings (carriers), other undertakings referred to in Article 28(3) of the Code, undertakings providing shunting services, and applicants referred to in Article 3(34) of the Code (hereinafter referred to as **the ‘Recipient’**). 1.1.4. This RSF Description has been drawn up in accordance with Commission Implementing Regulation (EU) 2017/2177 of 22 November 2017 on access to railway infrastructure and rail-related services and the Code.
1.2.	**Railway Infrastructure Operator**	1.2.1. **AB “LTG Infra”** Registered office: Geležinkelio g. 2, Vilnius Email info@ltginfra.lt Further information is available on the railway infrastructure Operator’s website (https://ltginfra.lt/en/railway-infrastructure/rsf/).
1.3.	**Validity period and renewal process**	1.3.1. The RSF Description is valid for the duration of the 2026–2027 service train timetable – from 12 December 2026, at 24.00, until 11 December 2027 at 24.00, and applies to the granting of access to the power supply points for this period. 1.3.2. RSF Description is updated when a new RSF service is introduced and/or when the conditions and procedures for the provision of the service and/or access to the RSF change. Recipients shall be notified of any amendments to the approved RSF Description by email immediately, but no later than within 1 (one) working day of the date of publication of the amended RSF Description.
2. Services		

2.1.	**Service name**	2.1.1. Provision of access to Electric Power Stations operated by the RSF Operator, intended for pre-journey heating of trains (hereinafter referred to as **'Access'**).

3. Description of railway service facilities

3.1. **List of facilities**

3.1.1. The RSF Operator grants the Recipient Access to the following Electric Power Stations:

No.	Region	Address	Number of units	Technical specifications	Location of the Electric Power Stations	Width of the railway track on the access road to the electricity substation	Working hours	Contact details
1.	Vilnius region	8 Terminalo Street, Vaidotai	2 Electric Power Stations	~230 V	Access roads No. 301A, No. 303 and No. 308 to Vaidotai railway station.	1520 mm gauge	24 hours a day, every day of the week (24/7)	Email: depuvaldymas@litrail.lt For access to power supply points in Radviliškis, Klaipėda, Turmantas, Ignalina and Mažeikiai: GSM-R 70515192, mobile: +37066577442; for access to charging points in Vaidotai, Kaunas, Kybartai, Varėna and Marijampolė:
		3A Savanorių Street, Varėna[1]	1 Electric Power Stations	~230 V voltage	Varėna railway station, platform 2	1520 mm gauge		
		8 Stoties Street, Turmantas	1 Electric Power Stations	~400 V voltage	Turmantas railway station between tracks 1 and 2	1520 mm gauge		
		19 Geležinkelio Street, Ignalina	1 Electric Power Stations	~230 V voltage	Ignalina railway station between tracks 2 and 4	1520 mm gauge		
2.	Kaunas region	114 L A. Juozapavičiaus Street, Kaunas	1 Electric Power Stations	~230 V voltage	Kaunas railway station access road No. 104	1520 mm gauge		
		4 Kudirkos Naumiesčio Street, Kybartai	3 Electric Power Stations	~230 V / 400 V voltage	Access roads No. 43, No. 44 and No. 52 to Kybartai railway station	1520 mm gauge		
		4A Stoties Street, Marijampolė	2 Electric Power Stations	~230 V / 400 V voltage	Marijampolė railway station, track 7	1520 mm gauge		

[1] The opening hours of Varėna railway station are Monday to Sunday: 4.30 am–10.00 pm. During these hours, the station handles the arrival and departure of trains, and shunting is possible. Recipients may use the facility at Varėna railway station 24 hours a day; however, they should plan their arrival, departure or any shunting requirements to coincide with the station's opening hours.

		3.	In the Radviliškis region	63 S. Daukanto Street, Radviliškis	17 Electric Power Stations	~230 V / 400 V voltage	Access roads to Radviliškis railway station: Nos. 637, 649, 652, 662, 664 and 666	1520 mm gauge		GSM-R 70515191, mobile: +37066566398
		4.	In the Klaipėda region	15A Priestočio Street, Klaipėda	6 Electric Power Stations	~230 V / 400 V voltage	Klaipėda railway station access tracks Nos. 113, 118, 121, 122	1520 mm gauge		
				9 Geležinkelio Street, Dapšiai village, Mažeikiai district	2 Electric Power Stations	~230 V voltage	Access road No. 12 to Bugeniai railway station	1520 mm gauge		
		5.	In the Šiauliai region	1 Stoties Street, Mažeikiai	1 Electric Power Stations	~230 V / 400 V voltage	Mažeikiai railway station, between tracks 5 and 6	1520 mm gauge		
3.2	**Technical specifications**	3.2.1. Information on the technical specifications of the Electric Power Stations is provided in section 3.1.1 of the RSF description. 3.2.2. The RSF Operator also has additional Electric Power Stations at Kaunas, Klaipėda, Radviliškis and Vilnius stations, which are not currently in use. Should the need arise, and subject to agreement with the RSF Operator on the terms of their use, these points may be used to provide services.								
3.3.	**Additional Information**	3.3.1. Information regarding access to electric charging points is available on working days from 8.00 to 17.00 via email pardavimai@ltginfra.lt and by telephone +370 669 34 152. 3.3.2. At the recipient's request, the RSF Operator will provide indicative information on the availability of Electric Power Stations and their expected occupancy. 3.3.3. The duration of use is calculated in intervals – regardless of the actual time used, usage of up to 1 (one) hour is charged as 1 (one) hour. Once the first hour has elapsed, the charge for additional usage time is calculated in 15 (fifteen) minute intervals. 3.3.4. The arrival of the Recipient's rolling stock at the access points is organised in accordance with the provisions of the Station Books and the Instructions on Traffic Organisation on Access Railway Lines. The Traffic Organisation Instructions and Station Books are provided in Lithuanian for mandatory written familiarisation once the Recipient has signed the Contract on the Use of Railway Service Facilities and the Provision of Services in Railway Service Facilities (hereinafter referred to as **the 'Contract'**). The Recipient shall be responsible for arranging any necessary translations into other foreign languages.								
4. Fee										
4.1.	**Information on fees**	4.1.1. **Fee for Access:** 4.1.1.1. **The metric for measuring the scope of Access is the time spent using the Electric Power Stations (in hours).** 4.1.1.2. The fee for using the Electric Power Stations (excluding VAT) is calculated using the following formula:								

		$K = V \cdot K_{\text{Į}}$; where: K – fee for granting access to the Electric Power Stations (EUR); V – the time during which the Recipient's vehicles were connected to the Electric Power Stations. The duration of access is calculated from the moment of connection to the Electric Power Stations and rounded in accordance with clause 3.3.3 of the RSF Description. The duration of Access for a calendar month is calculated by adding together all instances of Access rounded off during that calendar month; $K_{\text{Į}}$ – The fee for Access to Electric Power Stations (excluding VAT, in EUR) is published on the website https://ltginfra.lt/en/railway-infrastructure/rsf/list-and-charges/. 4.1.2. **No separate charge is applied for the electricity actually consumed.**
4.2.	**Information on discounts**	4.2.1. No discounts are applied for the use of the Access.
5. Conditions for granting access		
5.1.	**Legal requirements**	5.1.1. Access to the Electric Power Stations is provided to the Recipient upon conclusion of the Contract. A model form of the Contract is published on the RSF Operator's website (Rules and Contracts). ***Procedure for concluding the Contract*** 5.1.2. To conclude the Contract, the Recipient must submit **an application to conclude the contract** (the application form can be found on the RSF Operator's website; Rules and Contracts) and **a completed Customer Questionnaire** (which can be found on the RSF Operator's website; Rules and Contracts), by email pardavimai@ltginfra.lt, in accordance with one of the deadlines specified below: 5.1.2.1. If the intention is for the Contract to take effect from the start of the 2026–2027 service timetable period – the application should be submitted no later than 1 December 2026; 5.1.2.2. If the Contract is to be concluded during the 2026–2027 timetable period, which is already in force (i.e. at any time during the timetable's validity period) – the application should be submitted no later than 3 (three) weeks before the desired date of entry into force of the Contract**.** 5.1.3. No customer questionnaire is required if the Recipient intends to conclude (or has already concluded) a Contract for the Use of Public Railway Infrastructure and has submitted a completed standard Declaration form, as set out in the provisions of the 2026–2027 service train timetable network. Except in cases where, since the Recipient submitted the completed Declaration form, there has been a change in the Recipient's manager(s), representative and/or beneficiaries and/or address, or other details specified in the Declaration form. 5.1.4. Upon receipt of the documents specified in clause 5.1.2 of the Description, the RSF Operator shall, without delay but no later than within 3 (three) working days, confirm receipt of the documents by email and assess whether the documents have

been completed correctly.

5.1.5. If the RSF Operator determines that the Recipient, having submitted the documents specified in clause 5.1.2 of the RSF Description, has not provided all the necessary information or that the information (data) provided is incorrect, the RSF Operator shall, in writing or by email, within 10 (ten) working days of the date of receipt of the documents, inform the Recipient of the identified deficiencies and set a deadline of no less than 2 (two) working days for the deficiencies to be rectified.

5.1.6. If the Recipient fails to respond to the RSF Operator or to rectify the deficiencies within the time limit specified in clause 5.1.5 of the RSF Description, the RSF Operator shall, no later than within 5 (five) working days of the expiry of the specified deadline for rectifying the deficiencies, inform the Recipient in writing or by email that the Contract cannot be concluded.

5.1.7. Upon receipt of the Customer's questionnaire and in order to verify the information provided therein, shall carry out the Recipient verification procedure, during which it shall be entitled, prior to the conclusion of the Contract, to request the Recipient to provide additional data and/or documents within a reasonable timeframe specified by the RSF Operator, which would substantiate the circumstances under review.

5.1.7.1. Having carried out the Recipient verification procedure in accordance with the procedure laid down in internal legislation, which shall take no longer than 10 (ten) working days, the RSF Operator shall assess whether the Contract with the Recipient may be concluded. If it is decided that the Contract may be concluded, the RSF Operator may impose additional conditions applicable to the management of the identified risks during the performance of the Contract.

5.1.7.2. If, upon expiry of the time limit set out in clause 5.1.7.1 of the RSF Description, the RSF Operator decides not to conclude the Contract with the Recipient, it shall notify the Recipient of this decision in writing within 5 (five) working days.

5.1.8. Once the Recipient has submitted all the information requested by the RSF Operator and the RSF Operator has carried out the Recipient's verification procedure specified in clause 5.1.7.1 of the RSF Description, the GPI Operator, having assessed the results of the verification and decided to enter into a Contract with the Recipient, shall submit a draft contract to the Recipient no later than within 5 (five) working days from the expiry of the deadline specified in clause 5.1.7.1 of the GPI Description.

5.1.9. Information provided by the Recipient to the RSF Operator shall be stored, *mutatis mutandis,* in accordance with the requirements for the protection of commercial and professional secrets set out in Article 29[1](10) of the GTK. Complaints regarding decisions taken by the RSF Operator concerning the provision or refusal to provide the service to Recipients, as well as regarding restrictions on Recipients' right to use the service, shall be examined in a mandatory preliminary non-judicial procedure by the railway transport market regulator (the Communications Regulatory Authority of the Republic of Lithuania).

5.1.10. A Beneficiary wishing to gain access to the RSF and/or to the rail-related services provided within these RSFs, as described in the various specifications of railway service facilities provided by the GPI Operator, may submit a single application to conclude a Contract, specifying therein all access to the RSF and/or the railway-related services provided within these RFSs that they wish to obtain. In this case, the infrastructure manager and the service recipient shall conclude a single

		contract specifying all access granted by the infrastructure manager to the service recipient to the infrastructure and/or the services provided at that infrastructure.
5.3.	**Provision of railway-related services for own use**	5.3.1. The Recipient connects to and uses the Electric Power Stations themselves (**self-service**).
5.4.	**IT systems**	5.4.1. No IT systems are used.
6. Capacity Allocation		
6.1.	**Requests for access or for the use of services**	***Ordering access*** 6.1.1. Access to the Electric Power Stations must be booked and agreed with the RSF Operator verbally, by telephone, no later than 2 (two) hours before the planned time of arrival to start using the service. RSF Operator contact details for booking access: 1. for Electric Power Stations located in Radviliškis, Klaipėda, Turmantas, Ignalina and Mažeikiai: GSM-R 70515192, mobile: +37066577442; 2. for Electric Power Stations located in Vaidotai, Kaunas, Kybartai, Varėna and Marijampolė: GSM-R 70515191, mobile: +37066566398. **Upon arrival at the Electric Power Stations, the recipient must inform the RSF Operator of the start and end times of their use of the Electric Power Stations**. 6.1.2. The RSF Operator reserves the right, where necessary, to amend the procedure for ordering access set out in clause 6.1.1 and is entitled to request that the Recipient, on each occasion plans to order Access, to additionally submit to the RSF Operator a completed 'Order for Access to Electric Power Stations' form (Appendix No. 1) in writing by email depuvaldymas@litrail.lt . 6.1.3. For the RSF Operator, a verbal request from the Recipient to grant Access is sufficient for the Access order, in accordance with the procedure set out in clause 6.1.1 of the RSF description. However, having assessed the number of Recipients, the load on the Electric Power Stations or other circumstances relating to Access, the RSF Operator shall be entitled to additionally request the Recipient to submit, in writing, the form specified in clause 6.1.2 of the RSF Description. The Recipient shall be notified in writing, via the email address specified in the Contract, of the commencement of the procedure set out in clause 6.1.2 of the RSF Description. 6.1.4. For access to Electric Power Stations located on railway sidings or when shunting from one station track to another, **a Service Order Form must also be submitted** to request access to the railway station approach track required to reach the power supply point, in accordance with the RSF description '*Stacking tracks, railway tracks on which shunting and train formation operations are carried out, and other train formation and shunting* facilities' (https://ltginfra.lt/en/railway-

		infrastructure/rsf/descriptions/) the service referred to in point 2.1.2, 'Use of rolling stock formation and shunting facilities'. The Recipient orders this service by submitting a request to order the service in accordance with point 6.1.2 of the aforementioned RSF description, which sets out the requirements for ordering the service.
6.2.	**Response to requests**	***Responses to requests for access*** 6.2.1. Upon receiving a verbal request from the Recipient for the provision of access, the RSF Operator shall agree with the Recipient on the location, date, time and arrival arrangements for the provision of access, and shall confirm the access order to the Recipient by telephone. Where the RSF Operator receives several verbal requests, the coordination procedure set out in points 6.2.6–6.2.12 of the RSF description shall be applied. 6.2.2. Once the RSF Operator has commenced the procedure for submitting requests as set out in clause 6.1.3 of the RSF Description, the following procedure for granting access shall apply: Upon receipt of a completed Access Order Form, the RSF Operator shall assess its content and, if not all the required information has been provided and/or the information provided is inaccurate, the RSF Operator shall inform the Recipient accordingly and set a deadline of no less than 2 (two) working days for the submission of additional information. 6.2.3. Upon receipt of the returned Access Order Form, the Recipient shall immediately correct it and submit it by email. If, upon expiry of the deadline specified in clause 6.2.2 of this RSF description, the Recipient fails to submit the corrected and/or supplemented Access Order Form, the RSF Operator shall not proceed with the consideration of the application. 6.2.4. If, after submitting the Access Order Form, the details specified in this form change, the Recipient shall inform the RSF Operator of this immediately, but no later than before Access is granted, by email or telephone. 6.2.5. The request shall be granted once the responsible employee of the RSF Operator has assessed whether it is possible to grant Access to the Recipient and sends confirmation by email no later than 1 (one) working day from the date of receipt of the revised request to the Recipient's representative who submitted the request for access. ***Resolution of conflicting requests for access*** 6.2.6. Upon receiving a request from a Recipient to grant Access which is incompatible with a request for Access submitted by another Recipient, or which relates to Access already granted (hereinafter referred to as **an 'Incompatible Request'**), the RSF Operator shall initiate the Access Coordination Procedure. 6.2.7. Upon receipt of an Incompatible Request, the RSF Operator shall, without delay but no later than within 1 (one) hour of receiving the Incompatible Request, contact the Recipient who submitted the Incompatible Request and, where possible, propose a different date, time and/or location (hereinafter collectively referred to **as 'scope'**) for the provision of access to that specified in the Incompatible Request. 6.2.8. If the Recipient agrees to the RSF Operator's proposals to change the scope of Access provision specified in the Incompatible Request, they shall immediately inform the RSF Operator of their decision. In such a case, the Recipient's request for Access shall be deemed to have been agreed, and Access shall be provided in accordance with the amended scope of provision. 6.2.9. If the Recipient does not agree with the RSF Operator's proposals to amend the scope of Access provision, the RSF Operator, with a view to resolving all Unresolved Requests, may also approach other Recipients who have submitted

		requests for Access, or whose requests for Access have been granted, proposing to amend the scope of Access they have requested. 6.2.10. If at least one of the Recipients contacted in accordance with the procedure set out in clause 6.2.9 of the RSF Description agrees to amend the scope of the requested Access, the request for Access shall be deemed to have been agreed and the RSF Operator shall inform the Recipient accordingly. 6.2.11. If, following the steps set out in clauses 6.2.6–6.2.9 of the RSF Description, the Recipient's requirements cannot be reconciled (the Recipient does not agree to amend the scope of Access to be granted), the RSF Operator shall be guided by the Priority Criteria for granting Access set out in clause 6.3.1 of the RSF Description. 6.2.12. The RSF Operator shall inform the Recipient of the decision to reject the Recipient's Incompatible Request without delay, but no later than the requested start date for the provision of access, stating the reasons for the refusal and explaining why, following the coordination procedure set out in points 6.2.6–6.2.11 of the RSF Description, the Incompatible Request cannot be granted.
6.3.	**Priority criteria**	6.3.1. Upon receipt of mutually Incompatible requests for Access, the RSF Operator shall examine them within 1 (one) working day, in accordance with the following priority criteria: 6.3.1.1. rolling stock intended for passenger transport operations; 6.3.1.2. railway rolling stock intended for freight transport operations; 6.3.1.3. railway rolling stock used for the maintenance and repair of railway infrastructure and railway rolling stock. 6.3.2. If several Applications are received for the same time and place of Access for the servicing of railway rolling stock with the same priority criterion, Access shall be granted to the railway rolling stock for which the Application was submitted earlier.
6.4.	**Information on available capacity and temporary capacity restrictions**	6.4.1. The infrastructure manager shall provide information on temporary restrictions on the granting of access where: 6.4.1.1. a fault occurs in the technical equipment operated by the infrastructure manager and used to grant access; 6.4.1.2. repair work is being carried out on electricity distribution boxes. 6.4.2. Information regarding changes to the technical specifications of the RSF and temporary capacity restrictions which may have a significant impact on the provision of services, including planned works, is published on the RSF Operator's website (Temporary Capacity Restrictions). Once the Recipient has signed the Contract with the RSF Operator, this information is also provided to the Recipient at the Recipient's email address specified in the Contract.
7. Other information		
7.1.	**Appendices**	7.1.1. Appendix No. 1 Order form for access to Electric Power Stations.
